

Atoms In Japan

CONTENTS OF Vol. 40, 1996 No. 1 (JAN.) ~ No. 11 (DEC.)

This is the index to the 1996 issues
of Atoms In Japan. Subject heading
followed by a month and page citation.

SCOPE

- Only Five Years Left Before the Turn of the Century (Jan. p. 2)
- Reflections on the Sodium Leakage “Happening” at Monju (Feb./Mar. p. 2)
- JAIF Chairman’s Address for the 29th JAIF Annual Conference (May p. 2)
- What Did the Moscow Nuclear Safety Summit Achieve? (Jun. p. 2)
- Peaceful and Reliable Atoms for Asia (Jul. p. 2)
- How Do We Face the Challenge of New NPP Siting? (Sep. p. 2)
- Getting Ready for Decommissioning (Oct. p. 2)
- Reflecting on 1996: Viewing the Monju Accident as a Springboard for Change (Dec. p. 2)

SIGNED ARTICLES & INTERVIEW

- “Fuel Recycling is Very Important” (Apr. p. 2)
- “To win back the public’s confidence... I am convinced of the necessity to have the whole staff of PNC freshly resolve to work together” (PNC President T. Kondo) (Aug. p. 2)

NUCLEAR POLICY

- Three Prefectural Governors Deliver Proposal on Future Nuclear Policy (Feb./Mar. p. 17)
- Three Parties in Coalition Government Add Measures for Monju Accident (Feb./Mar. p. 21)
- AEC to Set Up New Advisory Committee for International Nuclear Cooperation (Feb./Mar. p. 22)
- Atomic Energy Commission to Sponsor Roundtable Discussions on Nuclear Policy (May p. 17)
- MITI Resumes Review of Nuclear Decommissioning (May p. 19)
- Atomic Energy Commission of Japan Holds First Roundtable Discussion on Nuclear Power (Jun. p. 40)
- AEC Holds 2nd Roundtable Conference on Nuclear Energy Policy (Jul. p. 8)
- MITI’s Nuclear Subcommittee Resumes Work (Aug. p. 13)
- STA Changes Policy to Disclose Information on Natural Uranium Shipments (Oct. p. 15)
- Atomic Energy Commission of Japan Studies ITER Siting Conditions and Financing (Oct. p. 18)
- AEC Announces New Policies on Nuclear Information Disclosure and Public Participation in National Policy-Making (Nov. p. 2)
- Party Platforms for General Election Differ Widely on Nuclear Policy (Nov. p. 10)
- FBR Special Committee to be Established in AEC (Dec. p. 16)

BUDGET & LAW

- Japan's Science and Technology Basic Law Takes Effect (Jan. p. 20)
- Nuclear-Related Budget for FY96 is Finalized (Feb./Mar. p. 9)
- Research Expenditures Decline in FY94 (Feb./Mar. p. 24)
- Office of Fundamental Program Policy for Science and Technology Established (Feb./Mar. p. 26)
- Summary of Sci-Tech Expenses in FY96 Draft Budget (Jun. p. 43)
- Nuclear Power Gets 35 Percent of Electricity R&D Budget for FY 1996 (Jul. p. 15)
- FY97 Nuclear-Related Budgets Total ¥493 Billion (\$4. 4 Billion) (Oct. p. 5)
- Outline of Proposed FY97 Budget for STA (Dec. p. 19)

NUCLEAR NON-PROLIFERATION

- Japan Installs Safeguards Monitoring System at BN-600 (Jan. p. 20)

NUCLEAR POWER GENERATION

Overview

- JAIF Releases Results of FY94 Fact-finding Survey (Jan. p. 9)
- Three Prefectural Governors Deliver Proposal on Future Nuclear Policy (Feb./Mar. p. 17)
- Think Tank Publishes Scenarios for Long-Term Energy Supply and Demand (Feb./Mar. p. 19)
- Russia's MINATOM and JAIF Hold Joint Seminar on Future LWRs (Feb./Mar. p. 22)
- FY 1995 Electricity Sales Outlooks Revised Upward (Apr. p. 10)
- Total Construction Costs of Japanese NPPs Nears ¥11 Trillion Mark (Apr. p. 16)
- FY95 Average Capacity for Japan's 49 Commercial Nuclear Units Exceeds 80 Percent for First Time (May p. 15)
- MITI's Electric Power Supply Plan for FY 1996: Four Nuclear Power Units to Be Initiated (Jun. p. 32)
- Atomic Energy Society of Japan Urges Stronger Education on Nuclear Power and Energy (Jul. p. 15)
- Nuclear Power Gets 35 Percent of Electricity R&D Budget for FY 1996 (Jul. p. 15)
- MITI Forecasts Marginal Supply Capability of 9. 9% this Summer (Aug. p. 9)
- MITI's Nuclear Subcommittee Resumes Work (Aug. p. 13)
- Outlook by MITI's Subcommittee: Energy Supply and Demand by FY 2030 (Sep. p. 10)
- TEPCO Substantially Cuts CO₂ Emissions (Sep. p. 17)
- New Research Report on Global Warming (Sep. p. 17)
- JEPSC Publishes Semi-Annual Electric Power Survey Report (Sep. p. 21)
- IEE Announces Optimal Power Source Composition for Japan in 2030 (Oct. p. 13)
- Nuclear Share of Primary Energy Hits 12%, Another Record High (Nov. p. 14)
- JEPSC Reports Electricity Supply and Demand in Fiscal 1996 (Dec. p. 18)
- Construction Costs at Rokkasho Reprocessing Plant Reach ¥1. 9 Trillion (\$17. 8 Billion) (Feb./Mar. p. 12)
- Prime Minister Hashimoto Expresses Intention to Continue Current Fuel-Recycling Policy (Apr. p. 8)

Construction of N-Plants

- TEPCO's Kashiwazaki-Kariwa-6 Attains First Criticality (Jan. p. 14)
- Total Construction Costs of Japanese NPPs Nears ¥11 Trillion Mark (Apr. p. 16)
- ABWR Commercial Operation Moved Up to October (Sep. p. 14)
- Hokkaido Electric to Build Tomari-3, with Commercial Operation Slated for 2008 (Sep. p. 14)
- Construction Launched at Tohoku Electric's Onagawa-3 NPP (Oct. p. 14)
- TEPCO's Kashiwazaki-Kariwa Unit 6 —World's First ABWR— Starts Operation (Dec. p. 5)

Operation of N-Plants

- Shikoku Electric Power Co. to Change SGs at Ikata NPS (Jan. p. 15)
- World's First ABWR Starts Generating Electricity (Feb./Mar. p. 5)
- Kansai Electric's Mihama Unit 1 Resumes Operation (Apr. p. 15)

- Tokyo Electric to Load High-Burn-Up Fuel into Fukushima II-1 NPS (Jul. p. 16)

Economy and Reliability

- Japan Atomic Power Company's FY95 Closing Account: Cost Reduction Raises Profit (Jul. p. 16)
- MITI Forecasts Marginal Supply Capability of 9.9% this Summer (Aug. p. 9)
- Outlook by MITI's Subcommittee: Energy Supply and Demand by FY 2030 (Sep. p. 10)
- JEPSC Publishes Semi-Annual Electric Power Survey Report (Sep. p. 21)

Accidents and Troubles

- Sodium Leakage at Monju FBR (Jan. p. 5)
- NSC Sub-Committee Deems Severe Accident Measures as Adequate (Jan. p. 14)
- STA Outlines Approach to Monju Investigation (Feb./Mar. p. 18)
- Prime Minister Urges Serious Reflection of Monju Accident (Feb./Mar. p. 19)
- Three Parties in Coalition Government Add Measures for Monju Accident (Feb./Mar. p. 21)
- STA Releases Results of Investigations into Monju Accident: Faulty Temperature Gauge Caused Sodium Leak (Apr. p. 4)
- Electric Power Companies to Support Donen's Publicity Activities on Monju (Apr. p. 17)
- STA Task Force: High-Frequency Fatigue Caused Thermometer to Break (May p. 13)
- STA's Second Monju Accident Report Cites Design Error as Cause (Jul. p. 6)
- Monju Accident Reenacted: No H₂ Found (Aug. p. 12)
- Nuclear Safety Commission Approves Interim Report on Monju Accident (Nov. p. 7)

Reactor Decommissioning

- MITI Resumes Review of Nuclear Decommissioning (May p. 19)
- Tokai NPS —Japan's First Commercial Reactor— to be Decommissioned in March 1998 (Aug. p. 5)
- JAPC and Two British Utilities Renew Agreement to Cooperate on Decommissioning (Dec. p. 17)

SAFETY AND ENVIRONMENT

Safety Assurance

- NSC Sub-Committee Deems Severe Accident Measures as Adequate (Jan. p. 14)
- Shikoku Electric Power Co. to Change SGs at Ikata NPS (Jan. p. 15)
- 10th Sino-Japanese Seminar on Nuclear Safety Held in Hiroshima (Jan. p. 19)
- STA Outlines Approach to Monju Investigation (Feb./Mar. p. 18)
- Prime Minister Urges Serious Reflection of Monju Accident (Feb./Mar. p. 19)
- CRC Research Inst. Develops "Basic Reactor Experiment Simulator" (Apr. p. 15)
- Nuclear Safety Commission to Revise Guidelines on Disaster Prevention Measures (May p. 17)
- NSC Approves New Five-Year Safety Program (May p. 18)
- Arrangement Concluded with Italy to Exchange Nuclear Safety Regulation Information (May p. 22)
- 6th International Nuclear Safety Forum Held (Jun. p. 43)
- Tokyo Conference on Nuclear Safety in Asia Makes Appeal for Participation in Atomic Safety Convention (Dec. p. 7)

Safety Research and Safety Standards

- STA Releases Results of Investigations into Monju Accident: Faulty Temperature Gauge Caused Sodium Leak (Apr. p. 4)
- Government Starts Discussion of Nuclear Disaster Prevention Measures (Apr. p. 14)
- Electric Power Companies to Support Donen's Publicity Activities on Monju (Apr. p. 17)
- STA Task Force: High-Frequency Fatigue Caused Thermometer to Break (May p. 13)
- STA to Develop Large-Scale Shaking Table Facility (May p. 20)
- 1995 Nuclear Safety White Paper Released (Jun. p. 41)
- STA's Second Monju Accident Report Cites Design Error as Cause (Jul. p. 6)
- Monju Accident Reenacted: No H₂ Found (Aug. p. 12)
- Japan to Host Nuclear Safety Conference in November (Aug. p. 13)
- NSC Invites Media to Attend First Open Meeting of Accident-Information Panel (Sep. p. 15)
- CRIEPI Carries Out Drop-Tests on New Cask for Spent Fuel (Sep. p. 16)

- MITI Announces Status of Waste Management and Occupational Exposure in NPPs (Sep. p. 18)
- JAERI's TRACY Reaches Transient-Criticality (Sep. p. 19)
- Helping to Solve the Riddles of Active Faults (Sep. p. 20)
- Nuclear Safety Commission Approves Interim Report on Monju Accident (Nov. p. 7)

Radiation Protection

- MITI Announces Status of Waste Management and Occupational Exposure in NPPs (Sep. p. 18)

Emergency Preparedness

- NSC Sub-Committee Deems Severe Accident Measures as Adequate (Jan. p. 14)
- Government Starts Discussion of Nuclear Disaster Prevention Measures (Apr. p. 14)
- NSC Carries Out Emergency Drill on Disaster Prevention Day (Oct. p. 12)

ENVIRONMENT

- Efforts by Japanese Utility Company to Solve Environmental Problems (Aug. p. 18)
- TEPCO Substantially Cuts CO₂ Emissions (Sep. p. 17)
- New Research Report on Global Warming (Sep. p. 17)
- STA Approves Proposal to Make Global Change Predictions (Nov. p. 18)

PUBLIC ACCEPTANCE & SITING PROBLEMS

Public Acceptance (PA)

- Kyushu Electric Freezes Siting Activities at Kushima (Jan. p. 15)
- Museum of Future Science and Technology Opens (Jan. p. 16)
- First "Enjoy-Science Seminar" is Highly Successful (Jan. p. 22)
- Newly Elected Mayor Supports Citizens' Referendum on Plant (Feb./Mar. p. 21)
- Atomic Energy Commission to Sponsor Roundtable Discussions on Nuclear Policy (May p. 17)
- Maki Town to Hold Local Referendum on NPP Construction in August (May p. 21)
- Atomic Energy Commission of Japan holds First Round-Trade Discussion on Nuclear Power (Jun. p. 40)
- Nuclear Power Symposium Held in Maki (Jul. p. 11)
- Mutsu Science and Technology Museum Opens, Exhibiting Dismantled Nuclear Ship Reactor (Sep. p. 19)
- Poster Selected for "Nuclear Power Day" (Nov. p. 20)

Information Disclosure

- Atomic Energy Commission to Sponsor Roundtable Discussions on Nuclear Policy (May p. 17)
- AEC Holds 2nd Roundtable Conference on Nuclear Energy Policy (Jul. p. 8)
- LDP Calls for Strengthened Promotion of Regional Development at Power-Source Sites (Aug. p. 7)
- NSC Invites Media to Attend First Open Meeting of Accident-Information Panel (Sep. p. 15)
- STA Changes Policy to Disclose Information on Natural Uranium Shipments (Oct. p. 15)

SITING

- Kyushu Electric Freezes Siting Activities at Kushima (Jan. p. 15)
- Effect of Power Plants Siting on Local Employment and Population Size (Feb./Mar. p. 14)
- Three Prefectural Governors Deliver Proposal on Future Nuclear Policy (Feb./Mar. p. 17)
- Newly Elected Mayor Supports Citizens' Referendum on Plant (Feb./Mar. p. 21)
- Primary Public Hearing to be Held on Tohoku Electric's Higashidori-1 (Apr. p. 17)
- Governor Officially Invites ITER to Locate in Hokkaido (May p. 20)
- Maki Town to Hold Local Referendum on NPP Construction in August (May p. 21)
- MITI's Electric Power Supply Plan for FY 1996: Four Nuclear Power Units to Be Initiated (Jun. p. 32)
- First Public Hearing on Construction of Tohoku Electric's Higashidori-1 (Jun. p. 35)
- Ibaraki Governor Makes Appeal for ITER Siting to STA Minister (Jun. p. 37)
- Tsuruga City Holds Exchange Meeting with STA Minister (Jun. p. 38)

- Nuclear Power Symposium Held in Maki (Jul. p. 11)
- Supreme Court Upholds Invalidation of 1993 Suzu Mayoral Election (Jul. p. 13)
- Council of Local Governments with NPSs Holds Meeting (Jul. p. 13)
- LDP Calls for Strengthened Promotion of Regional Development at Power-Source Sites (Aug. p. 7)
- Aomori Governor Approves Construction of Tohoku Electric's Higashidori-1 NPS (Aug. p. 11)
- Pro-Nuclear Candidate Wins Suzu Mayoral Election (Aug. p. 11)
- Maki Votes Against NPP Construction by a Large Margin : Mayor Sasaguchi Says Town Will Not Sell Land (Sep. p. 5)
- EPDCC Approves Construction of Higashidori NPP, First New Siting in a Decade (Sep. p. 8)
- Hokkaido Electric to Build Tomari-3, with Commercial Operation Slated for 2008 (Sep. p. 14)
- Election Held for Mayor of Nanto Town in Mie Pref. (Sep. p. 18)
- Atomic Energy Commission of Japan Studies ITER Siting Conditions and Financing (Oct. p. 18)
- Hamaoka Town Approves Chubu Electric's Construction of Additional NPP Unit (Nov. p. 5)
- Hokkaido Electric to Start EIS in December on Possible Construction of Tomari-3 (Nov. p. 14)

Opinion Poll

- STA Survey: How to Interest Youth in Science and Technology (Jan. p. 21)

ADVANCED REACTORS

FBR

- Sodium Leakage at Monju FBR (Jan. p. 5)
- JAIF Holds Japan-Russia Experts Meeting on FBR (Jan. p. 18)
- Japan Installs Safeguards Monitoring System at BN-600 (Jan. p. 20)
- STA Outlines Approach to Monju Investigation (Feb./Mar. p. 18)
- Prime Minister Urges Serious Reflection of Monju Accident (Feb./Mar. p. 19)
- Three Parties in Coalition Government Add Measures for Monju Accident (Feb./Mar. p. 21)
- Despite Monju Accident, JAPC Includes Demo-FBR in FY96 Plan (Feb./Mar. p. 23)
- STA Releases Results of Investigations into Monju Accident: Faulty Temperature Gauge Caused Sodium Leak (Apr. p. 4)
- JAPC and EdF Sign Information Exchange Agreement (Apr. p. 17)
- Electric Power Companies to Support Donen's Publicity Activities on Monju (Apr. p. 17)
- STA Task Force: High-Frequency Fatigue Caused Thermometer to Break (May p. 13)
- STA's Second Monju Accident Report Cites Design Error as Cause (Jul. p. 6)
- Monju Accident Reenacted: No H₂ Found (Aug. p. 12)
- Nuclear Safety Commission Approves Interim Report on Monju Accident (Nov. p. 7)

ATR

- Continued Utilization of ATR Fugen Proposed (Jan. p. 12)

HTGR

- JAERI Holds Symposium on HTGR Technologies (Apr. p. 12)

ALWR

- TEPCO's Kashiwazaki-Kariwa-6 Attains First Criticality (Jan. p. 14)
- World's First ABWR Starts Generating Electricity (Feb./Mar. p. 5)
- ABWR Commercial Operation Moved Up to October (Sep. p. 14)
- TEPCO's Kashiwazaki-Kariwa Unit 6 —World's First ABWR— Starts Operation (Dec. p. 5)

NUCLEAR FUEL CYCLE

Overview

- Construction Costs at Rokkasho Reprocessing Plant Reach ¥1.9 Trillion (\$17.8 Billion) (Feb./Mar. p. 12)
- Prime Minister Hashimoto Expresses Intention to Continue Current Fuel-Recycling Policy (Apr. p. 8)

Fuel Fabrication

- Major Japanese Power Companies Conclude Agreement with European Firms on MOX-Fuel Fabrication (Apr. p. 14)

Uranium Enrichment

- Another Uranium Shipment to Arrive at Rokkasho-mura Enrichment Plant (Oct. p. 15)
- PNC Begins Re-enrichment Tests on Recovered Uranium (Oct. p. 16)

Reprocessing

- PNC Starts Full Operations of TVF (Jan. p. 16)
- Construction Costs at Rokkasho Reprocessing Plant Reach —1.9 Trillion (\$17.8 Billion) (Feb./Mar. p. 12)
- Construction Costs for JNFL's Reprocessing Plant Reach ¥1.88 Trillion (Jun. p. 39)
- JAERI's TRACY Reaches Transient-Criticality (Sep. p. 19)

Plutonium & MOX Fuel

- Continued Utilization of ATR Fugen Proposed (Jan. p. 12)
- Major Japanese Power Companies Conclude Agreement with European Firms on MOX-Fuel Fabrication (Apr. p. 14)
- Mayor of Futaba Expresses Understanding of Pu-Thermal (Sep. p. 14)
- U. S. Approves Japan's Fabrication of Spent Fuel at European MOX Plants (Oct. p. 14)
- Interim Report Meeting of International MOX Assessment (IMA) Project Held in Kyoto (Dec. p. 12)

Storage and Transportation

- CRIEPI Carries Out Drop-Tests on New Cask for Spent Fuel (Sep. p. 16)
- MITI's Nuclear Subcommittee Stresses Importance of Spent Fuel Storage (Oct. p. 10)

Radioactive Waste

- PNC Starts Full Operations of TVF (Jan. p. 16)
- Obayashi Signs Deal with Swiss NAGRA for Rad-waste Disposal (Jan. p. 17)
- JAERI Commences Burial of LLWS (Jan. p. 20)
- PNC and Local Governments Reach Agreement on Construction of Deep Underground Research Facility (Feb./Mar. p. 17)
- MITI Resumes Review of Nuclear Decommissioning (May p. 19)
- SHP Submits Basic Plan for HLW Disposal in Japan (Jul. p. 4)
- NIRIM Develops New Ion-Exchanger for Removing Radioactive Iodine Contained in Spent Fuel (Jul. p. 17)
- Tokai NPS —Japan's First Commercial Reactor— to be Decommissioned in March 1998 (Aug. p. 5)
- MITI Announces Status of Waste Management and Occupational Exposure in NPPs (Sep. p. 18)
- Almost 90% of Construction Work Finished at Rokkasho Spent Fuel Storage Facility (Sep. p. 18)
- MITI's Nuclear Subcommittee Stresses Importance of Spent Fuel Storage (Oct. p. 10)
- 2nd HLW Shipment to Japan Scheduled for Early 1997 (Oct. p. 16)
- ANRE Agrees on LWR R&D Cooperation with U. S. DOE (Oct. p. 17)

NUCLEAR INDUSTRY

- Obayashi Signs Deal with Swiss NAGRA for Rad-waste Disposal (Jan. p. 17)
- CRC Research Inst. Develops "Basic Reactor Experiment Simulator" (Apr. p. 15)
- MHI Gets Green Light from MITI to Export Nuclear Equipment to China (Jun. p. 39)
- Japan's Plant Exports Set Record (Jul. p. 17)
- NISTEP Surveys Overseas R&D Activities of Japanese Companies (Aug. p. 15)
- MHI Develops Underwater Work Robot for PWRs (Dec. p. 19)

INTERNATIONAL COOPERATION

- Obayashi Signs Deal with Swiss NAGRA for Rad-waste Disposal (Jan. p. 17)
- JAIF Holds Japan-Russia Experts Meeting on FBR (Jan. p. 18)
- 10th Sino-Japanese Seminar on Nuclear Safety Held in Hiroshima (Jan. p. 19)
- Japan Installs Safeguards Monitoring System at BN-600 (Jan. p. 20)
- AEC to Set Up New Advisory Committee for International Nuclear Cooperation (Feb./Mar. p. 22)
- Russia's MINATOM and JAIF Hold Joint Seminar on Future LWRs (Feb./Mar. p. 22)
- Ukraine-Japan Seminar on Nuclear Safety (Feb./Mar. p. 26)

- JAPC and EdF Sign Information Exchange Agreement (Apr. p. 17)
- Japan's AEC Hosts 7th International Conference for Nuclear Cooperation in Asia (May p. 6)
- Arrangement Concluded with Italy to Exchange Nuclear Safety Regulation Information (May p. 22)
- MHI Gets Green Light from MITI to Export Nuclear Equipment to China (Jun. p. 39)
- 6th International Nuclear Safety Forum Held (Jun. p. 43)
- Report on Aid by Japanese Utilities to Asian Projects (Jul. p. 11)
- Japan's Plant Exports Set Record (Jul. p. 17)
- Japan to Host Nuclear Safety Conference in November (Aug. p. 13)
- NISTEP Surveys Overseas R&D Activities of Japanese Companies (Aug. p. 15)
- STA and U. S. DOE Sign Implementing Arrangement (Aug. p. 16)
- U. S. Approves Japan's Fabrication of Spent Fuel at European MOX Plants (Oct. p. 14)
- ANRE Agrees on LWR R&D Cooperation with U. S. DOE (Oct. p. 17)
- Tokyo Conference on Nuclear Safety in Asia Makes Appeal for Participation in Atomic Safety Convention (Dec. p. 7)
- JAPC and Two British Utilities Renew Agreement to Cooperate on Decommissioning (Dec. p. 17)

RADIOISOTOPES & RADIATION

- NIRS Reports Results of Clinical Trials Using HIMAC (May p. 21)
- CAET Concludes Report on SPring-8 Operations (Jul. p. 17)
- AEC's Subcommittee Reports on the Use of Accelerators (Aug. p. 12)
- Construction of SPring-8 Progresses (Nov. p. 15)
- RIKEN Discovers Five New Isotopes (Nov. p. 17)

NUCLEAR SHIP

- Former Nuclear Ship Mutsu Reborn as "Mirai" ("Future") (May p. 22)
- Mutsu Science and Technology Museum Opens, Exhibiting Dismantled Nuclear Ship Reactor (Sep. p. 19)
- Mutsu Sails Again as the "Mirai" (Oct. p. 16)

NUCLEAR FUSION

- Governor Officially Invites ITER to Locate in Hokkaido (May p. 20)
- Ibaraki Governor Makes Appeal for ITER Siting to STA Minister (Jun. p. 37)
- Japan Builds National Consensus to Locate ITER (Sep. p. 12)
- Atomic Energy Commission of Japan Studies ITER Siting Conditions and Financing (Oct. p. 18)
- JT-60 Sets World Record for Plasma Temperature (Nov. p. 16)
- JAERI Develops Remote Plasma Experiment System at JT-60 (Nov. p. 17)
- JAERI's JT-60 Attains Critical Plasma Condition (Dec. p. 10)

JAIF's ACTIVITIES

- JAIF Releases Results of FY94 Fact-finding Survey (Jan. p. 9)
- JAIF Holds Japan-Russia Experts Meeting on FBR (Jan. p. 18)
- Russia's MINATOM and JAIF Hold Joint Seminar on Future LWRs (Feb./Mar. p. 22)
- JAIF's 29th Annual Conference Opens in Nagoya (May p. 4)

JAIF's ANNUAL CONFERENCE

- JAIF's 29th Annual Conference Opens in Nagoya (May p. 4)
- "Energy, Environment, Technology —What Can Nuclear Energy Do?"— (Jun. p. 4)
- "Ten Year after Chernobyl —Its Consequences and Tasks" (Jun. p. 9)
- "Expanding Nuclear Power Programs in Asia" (Jun. p. 13)
- "FBR Development and Fuel Cycle Policy - Reflections on the Monju Accident" (Jun. p. 17)

- “High-Level Waste (HLW) Management —Promoting R&D and Consensus Building” (Jun. p. 24)
- “Nuclear Non-Proliferation and Plutonium” (Jun. p. 28)

CONFERENCE & MEETING

- JAIF Holds Japan-Russia Experts Meeting on FBR (Jan. p. 18)
- 10th Sino-Japanese Seminar on Nuclear Safety Held in Hiroshima (Jan. p. 19)
- Ukraine-Japan Seminar on Nuclear Safety (Feb./Mar. p. 26)
- JAERI Holds Symposium on HTGR Technologies (Apr. p. 12)
- Primary Public Hearing to be Held on Tohoku Electric’s Higashidori-1 (Apr. p. 17)
- JAIF’s 29th Annual Conference Opens in Nagoya (May p. 4)
- Japan’s AEC Hosts 7th International Conference for Nuclear Cooperation in Asia (May p. 6)
- Atomic Energy Commission to Sponsor Roundtable Discussions on Nuclear Policy (May p. 17)
- First Public Hearing on Construction of Tohoku Electric’s Higashidori-1 (Jun. p. 35)
- Tsuruga City Holds Exchange Meeting with STA Minister (Jun. p. 38)
- Atomic Energy Commission of Japan holds First Roundtable Discussion on Nuclear Power (Jun. p. 40)
- 6th International Nuclear Safety Forum Held (Jun. p. 43)
- AEC Holds 2nd Roundtable Conference on Nuclear Energy Policy (Jul. p. 8)
- Nuclear Power Symposium Held in Maki (Jul. p. 11)
- Council of Local Governments with NPSs Holds Meeting (Jul. p. 13)
- Tokyo Conference on Nuclear Safety in Asia Makes Appeal for Participation in Atomic Safety Convention (Dec. p. 7)
- Interim Report Meeting of International MOX Assessment (IMA) Project Held in Kyoto (Dec. p. 12)

ECONOMIC NEWS

- Medium-Term Outlook for Japanese Industry (Jan. p. 23)

ADVANCED TECHNOLOGY

- Riken Discovers Neutron Skin in Sodium (Jan. p. 20)
- JRDC Develops Super Heat Resistant Silicon-Carbide Fiber (Jan. p. 21)
- First Synthesis of Titanium Oxide in Thin-Film Texture (Feb./Mar. p. 25)
- Strong Electroconductive Material Developed (Feb./Mar. p. 25)
- New Technique for Directly Observing Microvascular Flow in Cardiac Muscles (Feb./Mar. p. 26)
- Association for Nuclear Technology in Medicine to be Launched (May p. 21)
- NIRS Reports Results of Clinical Trials Using HIMAC (May p. 21)
- JAERI Develops All-Solid-State Green Laser (Jun. p. 41)
- Surface-Defoaming Robot and Human Skin Coating to Be Commercialized (Jun. p. 41)
- JRDC Commissions Three New Products for Commercialization (Jun. p. 42)
- NIRM Sets Records for Superconducting Coil Magnetic Field (Jun. p. 42)
- CAET Concludes Report on SPring-8 Operations (Jul. p. 17)
- RIKEN Develops World’s First Light Emitter (Jul. p. 18)
- JAERI Develops Ultra-High Peak Power Laser (Jul. p. 18)
- AEC’s Subcommittee Reports on the Use of Accelerators (Aug. p. 12)
- JAERI Discovers Lightest Thorium Isotope (Aug. p. 15)
- STA Announces Nine SCF Themes for FY96 (Aug. p. 15)
- JAERI Develops New UV-Resistant Plant (Aug. p. 16)
- JAERI Selects Research Projects for REIMEI (Oct. p. 18)
- JRDC Decides to Commercialize Laser Interferometric Machine (Oct. p. 18)
- Sumitomo Electric Develops Dual System Super-conductive Wire (Oct. p. 20)

- NIRM Confirms Crack Healing of Silicon-Nitride Ceramic Material (Oct. p. 20)
- Construction of SPring-8 Progresses (Nov. p. 15)
- NIRS Cancer Therapy Uses Heavy-Particle Beams (Nov. p. 16)
- Sci-Tech Council Promotes Urgent Research Themes (Nov. p. 17)
- Council Proposes R&D on Structural Biology and Advanced Materials (Nov. p. 18)
- JRDC Develops Technology to Produce High-strength Aluminum Alloy (Nov. p. 18)
- JRDC Succeeds in Developing Practical Biodegradable Plastics (Nov. p. 19)
- NAL Supercomputer Sets New World Record for Processing Speed (Nov. p. 20)
- JAERI Develops Radiation-Resistant, Fiber-Reinforced Plastic (Dec. p. 20)
- NIRIM Develops New Material for Artificial Bones (Dec. p. 21)
- NRIM Doubles Strength and Elongation of Al-Si Casting Alloy (Dec. p. 21)
- JST Develops High-Temperature Semiconductor Pressure Sensor (Dec. p. 21)

PERSONNEL

- New Ministers for STA and MITI (Dec. p. 22)

“Operating Records of Nuclear Power Plants” and “INDUSTRIAL MEMO” are appeared in every issue.
