

FNCA Holds Ministerial-level Meeting in Manila

The Forum for Nuclear Cooperation in Asia (FNCA) held The 9th Ministerial-level Meeting on November 28 in Manila. The Japanese delegation to the meeting included Yoshitake Masuhara, vice minister for the Cabinet Office (in charge of science and technology policy), Chairman Shunsuke Kondo of the Atomic Energy Commission (AEC) of Japan, and others.

At a round-table discussion, the representatives considered the development of nuclear generation infrastructure and the further use of radiation. The member countries also confirmed their commitment to cooperation at the meeting, having planned to launch a panel on the development of power generation infrastructure as the third phase from next fiscal year.
