

The 52nd JAIF ANNUAL CONFERENCE

THE 52nd JAIF ANNUAL CONFERENCE

**April 9 - 10, 2019
TOKYO, JAPAN**

“Tapping the Full Potential of Nuclear Energy”

Japan Atomic Industrial Forum (JAIF) holds the “JAIF Annual Conference” each spring, a flagship event for the nuclear industry that attracts some 1000 nuclear experts and leaders from all over the world. The conference provides a great opportunity for sharing key matters affecting the development and use of energy and nuclear power, and offers a platform for networking among participants.

In the fifth Strategic Energy Plan, issued in July 2018, nuclear energy is positioned as an important base-load power source. The 52nd annual conference will be an opportunity to address from a broad viewpoint what is needed to tap nuclear energy’s potential to the maximum.

Venue: Tokyo International Forum (Hall B7)

3-5-1 Marunouchi, Chiyoda-ku, Tokyo, 100-0005, Japan
