

Progress at Fukushima Daiichi Nuclear Power Station and the surrounding area

Date : 10:00-12:00 (Vienna), 26 September 2022 (Monday)
Venue : Conference room CR2, C building, second floor, IAEA, Vienna
Language : English (Japanese verbatim in Q&A)

On March 11, 2011, unprecedented powerful earthquake and tsunami striking East Japan also hit Fukushima Daiichi Nuclear Power Station (FDNPS) of TEPCO, causing the most severe accident of core meltdown. During 11 years since the accident, all stakeholders have made devoted endeavors to remediate surrounding environment and reconstruct the area with steadily proceeding decommissioning of FDNPS.

This year focus shall be put on the latest conditions of decommissioning of the Fukushima Daiichi and the off-site progress where local industries and infrastructures are being restored.

We welcome any comments, questions or suggestions during the Q&A session.
