

Development of Advanced Reactors

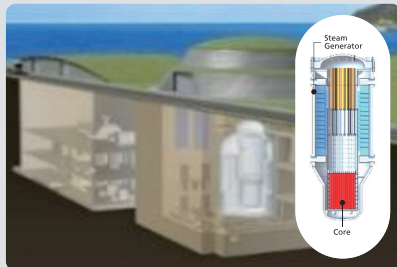

MHI is developing the Advanced LWR “SRZ-1200” which achieves world’s highest-level safety.
In addition, MHI promotes the development of advanced new reactors to meet future social needs.

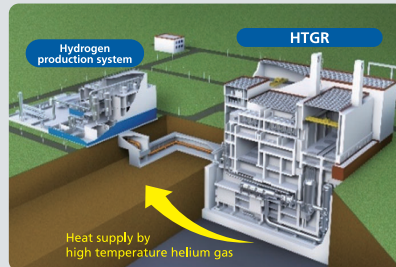

Advanced LWR SRZ-1200 (1,200 MWe)

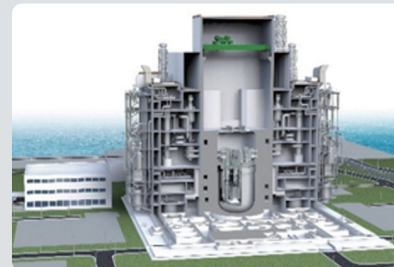

Small LWR (SMR) (300MWe)

High-Temperature Gas Reactor (HTGR)

Fast Reactor

Micro Reactor
