

## Developing Human Resources for a Safe, Secure, and Sustainable Future

Japan Atomic Energy Agency

MEXT

Ministry of Education, Culture, Sports, Science and Technology

Nuclear Security School in Hiroshima  
(IAEA MSCFP)

### Connecting Japan's Knowledge with Global Capacity Building

We support students and professionals through education and practical training in Japan, while promoting international capacity building in nuclear nonproliferation, nuclear security, and nuclear technology across Asia and beyond.

Getting real-world experience through a reactor simulation exercise

## Capacity Building in Nuclear and Radiological Emergency Medicine

National Institutes for Quantum Science and Technology (QST)

IAEA-CRC  
R&D Center for Radiation Emergency Medicine
