

# Three aspects of nuclear power's non-transparency

## 1) Non-transparency of nuclear politics

“Structural” disintegration of political underpinning

## 2) Non-transparency of nuclear policy

### a) Electric power system reform policy

Changes in financing environment as a result of deregulation

### b) Nuclear fuel cycle policy (esp. back end policy)

Political consistency from decommissioning to final disposal

## 3) Non-transparency of nuclear regulations

Problems with the Nuclear Regulation Authority's regulatory activities
