The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **International Conference on the Management of Naturally Occurring Radioactive Material (NORM) in Industry** (hereinafter referred to as "event") to be held at the IAEA's Headquarters in Vienna, Austria, from **19 to 23 October 2020**.

The purpose of the conference is to foster the sharing of experiences in the management of NORM in industrial operations with the aim of contributing to the harmonization of approaches and adoption of good practices that are simultaneously cost effective and safe taking into consideration members of the public and workers.

This is the first conference on NORM organized by the IAEA and will build upon inputs provided by different events already organized by the international community with a focus on the industry. This new conference aims to explore the good practices that have been put in place worldwide and bring together different players to identify current issues and expected future challenges and possible strategies for dealing with them.

Although the conference will focus on industrial operations it will consider the latest technological developments and research work, taking into account regulatory requirements and safety aspects.

The event will be held in English.

Member States are invited to disseminate the attached Announcement and Call for Papers to the target audience for the event and to designate participants using Form A. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

Applications for financial support using Form C, as well as submissions of papers using Form B, can only be considered if received by the deadlines indicated in Section L of the Announcement and Call for Papers.

International Conference on the Management of Naturally Occurring Radioactive Material (NORM) in Industry

IAEA Headquarters

Vienna, Austria

19–23 October 2020

Ref. No: IAEA-CN-287; EVT1902890

Announcement and Call for Papers

A. Introduction and Scope

Over the past decades, many studies have found higher natural radionuclide activity concentrations in wastes and residues from a wide range of industrial activities that are not part of the nuclear fuel cycle. Since then, despite some successful cases, most Member States have been struggling to find realistic, feasible and implementable approaches for proper management of NORM wastes/residues.

Several international and national conferences and meetings have been organized to discuss technical aspects of NORM management including detection of natural radionuclides in the workplace, radiological characterization, impacts of relevant industrial operations on the environment and workers, regulatory approaches, and the use of residues as building materials.

Not so common is the discussion of overarching issues like national inventories, applicable policy, strategies and approaches to managing NORM wastes/residues (including storage, disposal, involved

costs, long term liabilities, long term stewardship and associated costs); as well as the ‘graded approach’ to regulation; transportation and trade of scrap metals containing NORM.

Industries are gradually becoming aware of potential radiological issues in their operations and guidance on how to address these issues to conform with international good practices and existing national regulatory and safety requirements. Despite these efforts, there is still plenty of room for improvement — the full participation of different industrial actors in the discussion and elaboration of sound and feasible management approaches is crucial.

The conference scope will cover all the industrial operations (outside the nuclear fuel cycle) that can be associated with the increased natural radionuclide activity concentrations in wastes and residues and can give rise to increased exposures of members of the public and workers to ionizing radiation

B. Purpose

The purpose of the conference is to foster the sharing of experiences in the management of NORM in industrial operations with the aim of contributing to the harmonization of approaches and adoption of good practices that are simultaneously cost effective and safe taking into consideration members of the public and workers.

This is the first conference on NORM organized by the IAEA and will build upon inputs provided by different events already organized by the international community with a focus on the industry. This new conference aims to explore the good practices that have been put in place worldwide and bring together different players to identify current issues and expected future challenges and possible strategies for dealing with them.

Although the conference will focus on industrial operations it will consider the latest technological developments and research work, taking into account regulatory requirements and safety aspects.

C. Topics

The IAEA welcomes high quality contributions that fall under the umbrella of the five cross-cutting topics listed below.

1. NORM Inventories

- a. Identification of NORM-related industries operating within the country.
- b. Amounts of residues/wastes being generated.
- c. Radioactivity concentrations or exposure rates.
- d. Other hazardous materials of concern.

2. National Policies and Strategies

- a. Setup of waste management organization.
- b. Centralized vs multiple dispersed facilities.
- c. NORM-dedicated facilities vs facilities accepting multiple types of wastes.

- d. Stakeholder involvement.
- e. Environmental impact assessment.

3. NORM Characterization in Industrial Operations

- a. Appropriate sampling and monitoring methodologies.
- b. Analytical methodologies:
 - i. Laboratory measurements.
 - ii. On site measurements (e.g. in situ measurements, mobile lab).
- c. Infrastructure and equipment requirements.
- d. Quality assurance and quality control.
- e. Recordkeeping.

4. Residue and Waste Management

- a. Life cycle management to help prevent environmental contamination.
- b. Cost assessment across all aspects of residue/waste management.
- c. Management options for residues/wastes — application of the waste management hierarchy:
 - i. Prevention.
 - ii. Minimization.
 - iii. Reuse (i.e. using the NORM in its current form).
 - iv. Recycle (i.e. reprocessing of the NORM into a new form), including NORM contaminated scrap metal.
 - v. Disposal.
- d. Selection of management options, including reuse, recycle, storage, and disposal:
 - i. Justification and optimization:
 - a. Cost/benefit analysis.
 - b. Multi-criteria decision analysis.
- e. Financial guarantees.
- f. Other considerations (e.g. economic impacts).
- g. Transportation requirements and controls.

5. Decommissioning of NORM Facilities and Remediation of Contaminated Sites

- a. Decommissioning and waste management plan.
- b. Decontamination technologies.
- c. Dismantling technologies.
- d. Remediation.
- e. Identification of contaminated sites.
- f. Conceptual site model.
- g. Site characterization.
- h. Remedial action evaluation and selection.
- i. Costing and funding.
- j. Long term stewardship of closed or decommissioned NORM management facilities/sites.
- k. Institutional controls.

D. Structure

The conference programme will consist of an opening plenary session, plenary technical sessions, a poster session, panel sessions and a closing plenary session.

E. Contributed Papers and Posters

Papers on issues falling within the topics outlined in Section C above may be submitted as contributions to the conference. All papers, apart from invited papers, must present original work and should not have been published elsewhere.

E.1. Submission of Abstracts

Anyone wishing to present a paper at the conference — either orally or in the form of a poster — must submit an abstract **in electronic format** through the conference's web-based file submission system (IAEA-INDICO). Paper copies cannot be accepted.

Instructions on how to upload the abstract to IAEA-INDICO will be available on the conference web page (see Section N). The abstract **must** be submitted through this system by **28 February 2020**. No other form of submission will be accepted.

The abstract should not exceed **400 words**. The abstract must be in English and give sufficient information on the contents of the proposed paper to enable the Paper Selection Committee to evaluate it. Introductory and general matters should not be included. Please see the sample abstract on the conference web page.

In addition, authors must electronically submit the following two forms to their appropriate governmental authority (see Section F) for transmission to the IAEA. These forms must be received by the IAEA no later than **28 February 2020**:

- Participation Form (Form A)
- Form for Submission of a Paper (Form B)

IMPORTANT: The electronically received abstract will be considered by the Programme Committee only if these two forms have been received by the IAEA through the established official channels.

E.2. Acceptance of Papers for Oral and Poster Presentation

This conference has plenary technical sessions, so no parallel technical sessions will be organized. For this reason, the number of contributions that can be accepted for oral presentation is limited. Authors who prefer to present their papers as posters are requested to indicate this preference on Form A and in INDICO, at the time of submitting their abstracts.

Authors will be notified by **26 June 2020** as to whether their papers have been accepted for presentation at the conference, either orally or as a poster.

E.3. Submission of Full Papers

Authors of accepted abstracts will be requested to submit a full paper in Word format, about **five to ten pages maximum in length**. A compilation of full papers (in electronic form) will be made available to participants at registration.

Full papers must also be submitted through the IAEA-INDICO file submission system in Word format. Submitting the paper in the indicated electronic format is mandatory. Specifications for the layout and electronic format of the contributed papers and for the preparation of posters will be made available on the conference web page.

The IAEA reserves the right to exclude papers that do not comply with its quality standards and/or that do not apply to one of the topics outlined in Section C above and/or that do not meet the expectations based on the information in the abstract.

The deadline for electronic submission of the full papers as Word files is **24 April 2020**. The IAEA will not accept papers submitted after the deadline.

The IAEA will dispatch notifications of its review of the full papers by **26 June 2020**. The deadline for revised papers to be submitted through the IAEA-INDICO files submission system is **25 September 2020**.

IMPORTANT: The system for electronic submission of papers, IAEA-INDICO, is the sole mechanism for submission of contributed papers. Authors are encouraged to submit papers as early as possible. The IAEA will not accept papers submitted through email.

E.4. Conference Proceedings

The proceedings containing summaries of the plenary and technical sessions as well as full papers presented at the conference will be published by the IAEA as soon as possible after the conference. Copies of the proceedings can be ordered, at a special discounted price, during or after the conference.

F. Participation and Registration

All persons wishing to participate in the conference must be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the following form(s), as applicable, to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority):

- Participation Form (Form A): participation only; no deadline if only Form A is submitted.
- Form for Submission of a Paper (Form B): participants submitting a paper through INDICO (deadline **28 February 2020**), must send the completed and signed Form B together with Form A to their competent national authority for onward transmission to the IAEA (Official.Mail@iaea.org) by **28 February 2020**.
- Grant Application Form (Form C): participants requesting financial support from the IAEA, must complete Form C and send it together with Form A (and Form B, if applicable) to the competent national authority for onward transmission to the IAEA (Official.Mail@iaea.org) by **28 February 2020**. Form C must be stamped and signed by the competent national authority.

Participants who are members of an organization invited to attend are requested to send the above form(s) through their organization to the IAEA (Official.Mail@iaea.org).

In addition, participants are requested to pre-register online through the IAEA web page for the conference.

G. Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the conference. The IAEA has, however, limited funds at its disposal to help cover the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the conference.

If governments wish to apply for a grant on behalf of one of their participants, they should address specific requests to the IAEA to this effect. Governments should ensure that applications for grants are:

1. Submitted by **28 February 2020**;
2. Accompanied by a duly completed Grant Application Form (Form C) signed and stamped by the Ministry of Foreign Affairs or the National Atomic Energy Authority; and
3. Accompanied by a completed Participation Form (Form A).

Applications that do not comply with the above conditions cannot be considered.

Approved grants will be issued in the form of a lump sum payment that usually **covers only part of the cost of attendance**.

H. Distribution of Documents

A preliminary programme of the conference will be made available on the conference web page (see Section N) before the start of the conference and the final programme will be distributed at the conference during on-site registration. It is intended that full papers will be **distributed in a compiled electronic format (unedited) free of charge to all participants upon registration**. Questions relating to the contributed papers can be raised at the appropriate technical session or panel discussion.

I. Working Language

The working language of the conference will be English. All communications and papers must be sent to the IAEA in English.

J. Accommodation

Participants must make their own travel and accommodation arrangements. Detailed information on accommodation and other administrative matters will be sent directly to all designated participants approximately five months before the conference.

Please note that the IAEA is not in a position to assist participants with hotel bookings, nor can the IAEA assume responsibility for paying cancellation fees or for re-bookings and no-shows.

K. Visas

Designated participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria as soon as possible. Please note that Austria is a Schengen State and therefore persons who require a visa will have to apply for a Schengen visa at least 21 days before entry into Austria. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

If you need more information, please check: <http://www.eurovisa.info/SchengenCountries.htm>.

L. Key Deadlines and Dates

Submission of abstracts, including Forms A and B, through official channels to the IAEA	28 February 2020
Submission of Grant Application Form (Form C) through official channels	28 February 2020
Electronic submission of full paper	24 April 2020
Notification of acceptance of abstract	26 June 2020
Notification of review of full paper, if applicable	26 June 2020
Deadline for revised papers	25 September 2020
