

**The Nuclear Energy Forum in conjunction with
G7 Ministers' Meeting on Climate, Energy and Environment in Sapporo
at Room "Gyokuyo" in Sapporo Grand Hotel, Sapporo, Japan
April 16, 2023, 1:50 to 6 p.m.**

AGENDA

Energy security concerns and climate commitments have thrust nuclear energy to center stage in many countries around the globe. We are at a unique moment requiring leadership to advance policies that can further the use of nuclear energy as an effective technology to address these dual global challenges. This half day convening alongside the 2023 G7 Ministers' Meeting on Climate, Energy and Environment will bring together government and industry leaders to share views on critical issues. This event will be webcasted to enable a broader audience to observe.
